SUMMARY

Hi! I'm Dave, a web developer with industry experience building market research web applications. I started working with PHP/JavaScript/CSS/HTML/SQL for the first few years of my career and have experienced working with C / C++ / Java / MathLab / ReactJS / NodeJS / Express / MongoDB / MySQL / MSSQL. I've been building web applications for years now to the world's largest brands, international technology leaders, and national political campaigns.
